

We Cozy up to Dictator Who Boils
People Alive

'zit like the lobster?
Put him in cold water
and raise the temp?

If you, are you, like,
"Hey chef! it's freezing!
Push up the heat!" and
soon say "Enough!" too late?

Learning about boiling
overrules quaint justice.

Is there a protocol? Surely
Nazis had one for shake'n bake.
American History'd be served
by updated manual.

This administration may have failed
here and there, but tried, tried
to bring class to torture.
